<tbody>
<tr>
<td>1. Appropriate Personal Protective Equipment such as face masks, gloves and aprons may be provided for persons required to deal with any student suffering from an infectious respiratory illness suspected to be Covid. It is noted that without testing (from 1 April 2022) this cannot be formally ascertained.</td>
</tr>
<tr>
<td>2. Face coverings may be worn if desired in all crowded or high communal use points in College. Anyone that wishes to wear a face covering is welcome to do so more widely, and all members and staff are asked to be considerate of those that choose to do so and their potential enhanced risk by providing greater social distance etc.</td>
</tr>
</tbody>
</table>

### Provision of Catering

1. New staff member to have access to this updated risk assessment via the website.
2. Signage relating to hygienic behaviours to be maintained in communal areas of the College, mainly Lodges, JCR/MCR, and catering areas. Head Porter and Domestic Bursar to monitor periodically.
3. Covid and other respiratory or infection diseases behaviour expectations of students, staff and Fellows within College to be clearly visible on Venn within Covid pages.
4. In the event of an individual becoming ill and seeking to self-isolate, a clear process for physical signage is to remain available for use in situ. KX will no longer track cases now that testing has ceased.
5. Vaccination and booster take up to continue to be encouraged amongst staff, Fellows and students.

### Spreading of COVID-19 Coronavirus - through lack of awareness of safe working methods

1. All working areas are ventilated via open windows (ie fresh air, not recycled air) wherever possible when occupancy is raised above normal levels. Key areas to ventilate include the hall and all dining, meeting and combination rooms when occupied. Signage to encourage this, KX instructions to include “opening windows” for event teams as catering and porters.
2. Policy of “airing” gaps between bookings for communal meeting rooms to be applied where possible.
3. Restricted capacities in place for areas of poor ventilation if cases in College are high - main risk area being the Bateman Auditorium and Room.

### Spreading of COVID-19 Coronavirus - through lack of effective ventilation

1. Hand washing facilities with soap and water are in place and available to all members and staff. Use of alcohol based hand sanitiser to be facilitated if hand washing facilities are not available or if a large scale event occurs.
2. Normal cleaning regimes in place with attention to touch points in high traffic areas.

### Spreading of COVID-19 Coronavirus - through respiratory contact via close proximity of individuals (“social distancing”)

1. No requirements remain in law after 24 February 2022. However...
2. Screens set up in offices may remain in place at the preference of the occupying staff member. No new screens will be put in place.
3. College meetings may continue to be conducted by video conferencing if the Convenor and Chair agree to do so, but this is not a requirement. Meetings in person should be well ventilated in all instances.

### Use of Personal Protective Equipment

1. Appropriate Personal Protective Equipment such as face masks, gloves and aprons may be provided for persons required to deal with any student suffering from an infectious respiratory illness suspected to be Covid. It is noted that without testing (from 1 April 2022) this cannot be formally ascertained.
2. Face coverings may be worn if desired in all crowded or high communal use points in College. Anyone that wishes to wear a face covering is welcome to do so more widely, and all members and staff are asked to be considerate of those that choose to do so and their potential enhanced risk by providing greater social distance etc.
### Review should be conducted at 12 months or earlier if the following occurs:

1. The process or safe system of work changes
2. Introduction of new technology
3. Introduction of new machinery
4. After a major accident/incident or a number of minor ones have occurred
5. Introduction of new legislation
6. A new hazard is introduced.
